Cohn of Cincinnati who operated a coffeehouse in 1863 and will be so listed in the new Store Card book. An exceedingly rare merchant, neither Adams or Miller listed the denomination and Rulau only lists a 5 Cent denomination valuing it at $1,000 even when it was thought to be a pre-Civil War token. FINE Coin FINE holed for suspension while the center three lines are very strong the first and last line are weak. It is thought that most if not all of these counterstamps were made from an original Bolen punch after his death in 1907. Rulau Ma Sp 10 Brunk B-830 From the Steve Tanenbaum collection. (200-300)

536 - D. BROWN / WARREN on the obverse of an 1822 Large Cent. VF Coin VG. Though Warren would appear to be a town name, a quick internet search turned up nothing concrete. Excellent research opportunity. (50-75)

Not listed on this denomination in Rulau. Rulau PA 239I From the Richard Crosby collection. (300-400)

546 - KUNKEL'S / OPERA TROUPE on the obverse of a 1795 Spanish Two Real. VF Coin VG+. George Kunkel's Opera Troupe specialized in minstrel shows in Baltimore during the late 1850's to the early 1860's. A similar example sold for $174.90 in our September 2010 sale. Rulau MD 86A From the Richard Crosby collection. (200-300)

547 - EL in raised letters on the obverse of Hard Times token Low 132 / HT-195. EF Coin VF or so but abrasively cleaned with many scratches. The consignor placed a tentative attribution on the piece as the stamp of Elijah Lincoln (1794-1861) of Hingham Massachusetts a Silversmith who was active 1818-33. Though this piece post dates his known active years the stamp does resemble the illustration in Ensko's American Silversmiths and Their Marks and would seem to place this piece squarely in the Hard Times period. (150-200)

548 - S. LEONARD in raised letters in a rectangular punch on the obverse of a Draped Bust Large Cent. VF Coin AG. Samuel T. Leonard 1786-1848 was a Silversmith in Chestertown Maryland active in the years 1805-10 per Ensko's book on American Silversmiths. (200-300)

549 - PARISIAN / VARIETIES / 16. St & B'WAY. N. Y. on the obverse of an 1875 half Dollar. EF Coin EF but with light scratches across the reverse. According to Rulau Parisian Varieties was an erotic show of nubile young ladies in 1875 and 1876. (300-400)

550 - W. F. PAGE / W. B. PAGE / I. C. LANE all on the obverse of an 1827 Large Cent with punches of varying sizes. VF Coin VG but holed for suspension. The stamp of Walter B. Page machinist from Plainfield Vermont. This is the Brunk and Rulau plate specimen. Rulau Vt Pl 5 (50-75)

551 - W . R in raised letters in a serrated rectangular depression on the obverse of an 1844 Large Cent. FINE Coin AG or so and quite battered. A very crude stamp indeed. (25-50)

552 - J. H. STIGERS. On the obverse of an 1826 Large Cent. VF Coin VG with some obverse cuts and porous with green residue. An excellent research opportunity for this as yet unidentified stamp. The latest dated coin known for this stamp is 1831 indicating it could very well be from the Hard Times period. Additionally, though it is unclear to us if the first initial is an I or a J, neither has been noted before as it has always been listed simply as H. Stigers. This is the same stamp just more carefully centered, hopefully this additional initial will prove the key to unlocking a mystery. (50-75)

553 - STODDART'S / FAMILY DRY GOODS / STORES / 278. 280 & 282 / NTH 2ND St / PHILa on the obverse of a 1791 Two Real. FINE Coin AG. Very rare counterstamp, one of just a half dozen or so known. Rulau PA 722 From the Richard Crosby collection. (400-500)

554 - G. T and 30 both raised in rectangular serrated depressions on the obverse of a Large Cent from the 1816-35. VF Coin POOR and holed with many marks. Another interesting stamp yet to be discovered. (25-50)

555 - Wm Thomson in raised script letters in a form fitting depression on the obverse of an 1841 Large Cent. VG Coin VG. William Thomson was a New York City Silversmith active in the years 1810-1845 per Ensko's book on American Silversmiths. (150-200)

556 - DR. G. G. WILKINS with a curved punch on the obverse of an 1863 Patriotic Civil War token 180/341 a. EF Token VF. George Wilkins was a dentist in Pittsfield New Hampshire. It is interesting the stamp was placed above the rider F. Sigel where the motto The Hero Of Pea Ridge is normally found. This is the first Wilkins stamped Civil War token we have seen, though Brunk lists two and he was such a prolific issuer there are likely others. (300-400)

557 - ADMIT / TO / WOOD'S / MINSTREALS / 444 BdWAY / NY on the obverse and reverse of an early 1800's Spanish Two Real. VF Coin AG+. From the Steve Tanenbaum collection. (150-200)

No. 41 Maiden Lane New York Jewellery Perfumery, Engravings, Stationery & French And English Fancy Articles struck in White Metal. Incredibly Ford had three examples (one damaged) of this very rare merchant, this being the finest certified. All others seen have been low grade and / or damaged, missing from the Dice-Hicks offering. Refer to the Rulau plate specimen for a more typical example, a nice FINE+ but with scratched reverse sold for $1,650 in Bowers and Merena's November 1990 sale. A very rare opportunity. 631 - LOW 257A / HT-A282 R8 VG Or so but badly corroded. L. G. Irving & Co. St. Louis & J.S. Pease, New York. Very rare variety with motto He Who Lives By The Sweat Of His Brow Seldom Lives In Vain rather than In Ruin as normally encountered. A duplicate from the Steve Tanenbaum collection earlier from PCAC's November 2006 sale where it realized $920. (750-1000)

632 - LOW 261 / HT-286 R2 AU A bit weak near rims as usual. H. Law Baker English Bread, Twist & Fancy Cakes, New York. A similarly struck EF+ sold for $285 in our July 2012 auction. From the John Ford collection. (300-400)

636 - LOW 274 / HT-308 R2 MS63 B. Ruggles Gold Beater, New York signed Bale NY with Arm and Hammer pictured. Very scarce this nice. From the John Ford collection. (300-400)

637 - LOW 274E / HT-308E R8 AU+ But with light reverse scratches. B. Ruggles Dentists Gold, New York struck on a thin planchet with a diagonally reeded edge and dentiles (beaded) rather than raised Plain border. The varieties listed as HT-307B and HT-308E appear to be the same with the slightly larger diameter resulting in the beading being visible on each side as in this 27mm specimen. We believe based on the Vlack listings that the HT-307B has vertical reeding while HT-308E has diagonal reeding and have chosen to call this HT-308E. Both should likely be listed under HT-308 as the central design and lettering match and are completely different from HT-307. This is a fascinating piece in need of further study for while the design appears identical to HT-308 the edge treatment and planchet stock are quite different. A very rare token whatever it is called. We are aware of only one other example, from Bowers & Merena's November 1996 sale of the Vlack collection where both listings and Rulau's plates originated. From the John Ford collection earlier from F. C. C. Boyd in March 1958. (1000-1500)

638 - LOW 279A / HT-318A R4 AU58 Squire & Merritt Ship Chandlers and Rope Makers, New York. A very confusing merchant to attribute with many die and sub varieties. Adding to the confusion Rulau's listing and spacing where the descriptions of the varieties proceed the listing rather than follow it as in other sections of his book. This is die combination 1-A with a Plain edge and no counterstamp. A VF+ with light planchet flaws sold for $176 in our March 2002 sale. From the John Ford collection earlier from F. C. C. Boyd in March 1958. In a NGC holder graded AU58 BN though called HT-321 apparently in error. (300-400)

639 - LOW 283 / HT-324 R6 MS62 Trace Red on the reverse. Squire & Merritt Ship Chandlers and Rope Makers, New York. A very confusing merchant to attribute with many die and sub varieties. Adding to the confusion Rulau's listing and spacing where the descriptions of the varieties proceed the listing rather than follow it as in other sections of his book. This is die combination 3-B with a Reeded edge and no counterstamp. Quite rare in Uncirculated condition, an AU sold for $477.40 in our June 2005 sale. From the John Ford collection earlier from F. C. C. Boyd in March 1958. In a NGC holder graded MS62 BN. (750-1000)

643 - LOW 300 / HT-181 R1 VF With residue traces and reverse dig. John J. Adams, Taunton Massachusetts with running boar pictured. (25-50)

644 - LOW 305 / HT-101 R3 AU58 Or nearly so. Davenport Combs and Perfumery, New Haven Connecticut. Underrated merchant, an EF brought $467.50 in our June 2011 auction. In a NGC holder graded AU58 BN. (500-750)

645 - LOW 307A / HT901B Unlisted AU Trace Bright with a very thin layer of Silvering over much of the surface. Doremus, Suydam & Nixon, New York struck in Silvered Brass with a Plain edge. Though unlisted there are five or more examples known. An EF example of the regular brass variety sold for $220 in our July 2012 sale. A duplicate from the Steve Tanenbaum collection. (400-500)

837 - MILLER PA 390B EF Reverse stains. Pennypacker & Sibley, with blank reverse counterstamped I struck in Brass with Plain edge. Long attributed to Philadelphia, Rulau questions his own placement in the 1845 to 1860 time period noting no directory listings exist through 1860. Perhaps the true answer is it is not Philadelphia at all. While Wm. G. Pennypacker did have earlier connections and business dealings in Philadelphia, he along with D. H. Pennypacker, Josiah Sibley and others formed and operated Pennypacker & Sibley a Stave Mill in Van Wert Ohio around 1863. Sibley eventually left the firm around 1870 and became part of Eagle Stave Company also of Van Wert. By the die style this piece is likely late 1860's. Further research is needed.
